Admin

The image displays three distinct web page layouts side-by-side, illustrating different design approaches or components.

Left Design (Stops Page): Features a search bar with the text "50392" and a "Go" button. Below the search bar is a table with three columns labeled "1", "2", and "3". A callout box points to the "Go" button, stating: "Site title and descriptive text disappears as soon as the stop number field gets focus. This makes parts of the UI disappear after they're not needed".

Middle Design (About This is Our Stop Page): Features a title "About This is Our Stop" and a paragraph of text: "Let's make the communities around bus-stops discoverable and engaging. Read and share news and suggestions about your favourite stops." Below the paragraph is a disclaimer: "Offered as-is, without guarantee of any kind. Some content may offend. Abuse will result in device blacklisting." At the bottom, it states "This service is not affiliated with".

Right Design (Firehose Page): Features a title "Firehose" and a "Flagged" section. Below the title is a "Lookup Stop" search bar. The "Flagged" section contains a table with columns: "Stop", "Post", "Time", "User", and "Actions". The table lists several entries, each with a "Stop" number, a "Post" description, a "Time" stamp, a "User" name, and "Actions" (Delete, Clear Flag, Banish User).
